

Dear Galloway Families,

Welcome to Galloway's first Camp "HOOT!" We have adopted a "brand" name for our summer camp that will be identifiable and unique to The Galloway School in the years ahead.

At Galloway, we believe summer camp should include a wide range of exciting learning that extends well beyond the confines of the school day or even the school year. Fueled by this belief, we initiated GallowayEXTEND, our NEW after school program of clubs, academic competitions, and mini-courses. Like EXTEND, in HOOT CAMP, we will offer an innovative summer school built around challenge-based programs and academic support services that include a wide of subject areas.

The beauty of EXTEND and HOOT CAMP is in the richness of our programming. We are actively seeking to form partnerships with a host of dynamic local and national program providers in areas such as the arts, STEM (science, technology, engineering and math), fitness and academic. In addition, all of our passionate members of the Galloway faculty will be contributing their time and talents for a portion of summer camp. The result? A learning experience which taps into your child's interests and stimulates his or her mind outside the traditional school day and calendar.

HOOT CAMP combines the dynamic academic and enrichment programming of GallowayEXTEND with a series of summer camps to create a unique array of options for your child. From our traditional all day camp featuring memorable theme-based activities to specialty camps offered through some of our EXTEND program agencies, Camp HOOT offers stimulating, fun and cost-effective learning and social activities for your child.

We are pleased that our beautiful campus remains alive during the summer! I look forward to seeing your child and you on campus this summer enjoying HOOT CAMP~

Debbie Stroud
Head of School
